

PARTIES

2. Plaintiff Kevin Johnson is a resident of Coryell County, in the Western District of Texas. Plaintiff was issued 3M Company's dual-ended Combat Arms™ earplugs – (Version 2 CAEv.2). Before enlisting in the U.S. Army, Plaintiff had no signs or symptoms of hearing loss or tinnitus. While serving, Plaintiff was never instructed to fold back the third flange on the opposite side of the use end of the Combat Arms™ earplug. Plaintiff was subsequently diagnosed with tinnitus.

3. Defendant 3M is a Delaware corporation with a principal place of business in St. Paul, Minnesota and operations in Austin, Texas. Among other things, Defendant is in the business of designing, manufacturing, marketing and selling worker safety products, including hearing protection. Defendant 3M can be served with process by serving its registered agent with service of process in Texas, Corporation Service Company d/b/a CSC-Lawyers Inco, 211 E. 7th Street, Suite 620, Austin, TX 78701.

4. Defendant Aearo Technologies LLC is a limited liability company formed in Delaware with its principal place of business in Minnesota. Defendant Aearo Technologies LLC can be served with process by serving its registered agent for service of process in Texas, Corporation Service Company d/b/a CSC-Lawyers Inco, 211 E. 7th Street, Suite 620, Austin, TX 78701.

NOTICE OF TAG-ALONG JURISDICTION

5. This is a potential tag-along action and, in accordance with 28 U.S.C. 1407, may be transferred by the Joint Panel in Multi-District Litigation ("JPML"), MDL No. 2885 – IN RE:

3M COMBAT ARMS™ EARPLUG PRODUCTS LIABILITY LITIGATION, pending before the JPML.

JURISDICTION

6. This Court has subject matter jurisdiction over this action under 28 U.S.C. § 1332 because complete diversity of citizenship exists between the parties and the amount in controversy exceeds \$75,000.

7. Plaintiff is a resident of Coryell County, Texas. Texas has fifteen (15) active military bases, six (6) of which include Fort Hood, the most populous military institution in the world, and the combined Joint Base San Antonio (“JBSA”). The family of Joint Base military installations in the United States Army’s Fort Sam Houston; and the United States Airforce Base, Lackland Air Force Base, and Martindale Army Airfield. The JBSA includes the Brooke Army Medical Center (“BAMC”) as part of Ft. Hood. BAMC is the Army’s premiere medical institution, the Department of Defense’s largest facility, and the only Level 1 Trauma Center. The highest and second-highest combined economic output of all Texas bases, are in the Western District of Texas, and Texas has twenty-nine (29) active Veteran’s Administration Hospitals in the Western District of Texas. Importantly, there are more veterans residing in Texas than any other State in the country who are either Gulf War era post-911 Veterans, or pre-911 Veterans. Thus, Texas Veterans can be expected to be the most exposed, by number, to the dual-ended Combat Arms™ earplugs at issue in this case.

8. Defendant 3M Company is organized under the laws of Delaware and has a principal place of business in St. Paul, Minnesota.

9. Defendant 3M Company also maintains a principal Global Marketing, Supply Chain and Research and Development Division (hereinafter, “3M Texas”) in Austin, Texas. Defendant 3M Company has maintained corporate operations in the Western District of Texas since 1982, including 120 employees at a 220,000 square-foot manufacturing facility in Austin, Texas, and more than 800 employees at its 330,000 square-foot white-collar facility that houses 3M Texas.

10. 3M Company also operates multiple Industrial Safety Market Centers in Texas in at least Dallas, Houston and Austin, Texas that are responsible for outreach and distribution of personal protective equipment, including hearing conservation products, such as the dual-ended Combat Arms™ earplugs at issue herein, to the military.

11. 3M Texas is and was responsible at least for managing the marketing of personal protective equipment, including hearing conservation products, to military, law enforcement, construction, automotive, and other sectors. 3M Texas is and was responsible for the on-boarding and management of Hearing Sales Specialists and for achieving forecasted sales goals for 3M Company’s hearing conservation products and conducting training where appropriate. 3M Texas marketing was and is responsible for at least a multi-State Region that included Texas, Louisiana, New Mexico, and Oklahoma.

12. Defendant 3M Company and 3M Texas designed, manufactured, marketed and/or sold or otherwise placed dual-ended Combat Arms™ earplugs into the stream of commerce, including transactions with, marketing, and distribution to United States Military bases and servicemembers located throughout Texas and specifically in the Western District of Texas. Defendant knew at all times during the design manufacture, marketing, sale and training relating

to the dual-ended Combat Arms™ earplugs that the products in question would travel among and through each and every state, including Texas, and Defendants should have reasonably anticipated the need to answer suit arising out of the manufacture, design, and sale of these dual-ended Combat Arms™ earplugs in Texas generally and the Western District of Texas specifically.

VENUE

13. Venue is proper in the Western District of Texas, Austin Division, because it is the judicial district in which a substantial part of the events or omissions giving rise to the claim occurred. 3M Company's and 3M Texas' contacts with the Western District related to and are the cause of Plaintiff's injuries. Moreover, 3M Company's and 3M Texas' actions and contacts in the Western District of Texas have been the most significant contacts in the State of Texas 28 U.S.C. § 1391(b)(2), (b)(3) and (d).

FACTUAL ALLEGATIONS

14. Plaintiff, Kevin Johnson is an Army veteran and resident of the Western District of Texas.

15. Plaintiff was issued dual-ended Combat Arms™ earplugs, designed, manufactured, marketed and sold by Defendant 3M Company. As a result of using these defective earplugs during combat and training, Mr. Johnson continues to suffer daily from tinnitus.

16. In July 2018, Defendant 3M agreed to pay \$9.1 million to resolve allegations that it supplied the United States with defective dual-ended Combat Arms™ earplugs. *See United States of America ex rel. Moldex-Metric, Inc. v. 3M Company*; In the United States District Court for the District of South Carolina, Columbia Division; Case No. 3:16-1533-MBS. In that case, the United States alleged that 3M, and its predecessor, Aearo Technologies, Inc., knew the dual-ended Combat

Arms™ earplugs were too short for proper insertion into users' ears and that the earplugs could loosen imperceptibly and therefore did not perform well for certain individuals. The United States further alleged that 3M did not disclose this design defect to the military. The petition in that case is incorporated by reference herein.

17. Defendant 3M's dual-ended Combat Arms™ earplugs, which are non-linear, or selective attenuation, earplugs, were designed to provide soldiers with a single set of earplugs that offer them two options for hearing attenuation depending upon how the plugs are worn. If worn in the "closed" or "blocked" position, the earplugs are supposed to block sound like traditional earplugs. If worn in the "open" or "unblocked" position, the earplugs are supposed to block, or at least significantly reduce, loud impulse sounds of battlefield explosions, while still allowing the wearer to hear quieter noises such as commands spoken by fellow soldiers and approaching enemy combatants. These earplugs were originally created by a company called Aero Technologies ("Aero"). 3M acquired Aero in 2008 (and thus any liability associated with its past conduct) and hired the employees at Aero that developed and tested the defective earplugs. These 3M employees were aware of the defects as early as 2000, several years before 3M/Aero became the exclusive provider of the earplugs to the military.

18. It was known or knowable to 3M/Aero at the time it received the exclusive contract to supply earplugs to the military, between 2003 and 2012, that these earplugs had dangerous defects that could cause them to loosen in the wearer's ear, imperceptibly to the wearer and even trained audiologists visually observing a wearer, thereby permitting damaging sounds to enter the ear canal by traveling around the outside of the earplug while the user and/or audiologist incorrectly believes that the earplug is working as intended. Because the stem of the dual-ended earplug is too short, it is

difficult to insert the plug deeply into some wearer's ear canals and obtain a proper fit. Specifically, when the earplug is inserted into the ear according to standard fitting instructions, the basal edge of the third flange of the non-inserted end of the earplug is prone to press against some wearers' ear canals and fold back to its original shape, thereby loosening the seal in their ear canals. The defect has the same effect when either end is inserted because the earplugs are symmetrical. In either scenario, the effect is that the earplug may not maintain a tight seal in some wearers' ear canals such that dangerous sounds can bypass the plug altogether thereby posing serious risk to the wearer's hearing unbeknownst to him or her.

19. These dangerous design defects were known to Aearo in 2000 (and later 3M) when it completed testing of the dual-ended Combat Arms™ earplugs.

20. Despite this knowledge, in 2003, Aearo submitted a bid in response to the military's Request for Proposal to supply large quantities of these defective earplugs and entered into a contract pursuant to which it became the exclusive supplier of earplugs to the military.

21. When Defendant Aearo/3M Company initially tested the dual-ended Combat Arms™ earplugs before becoming the exclusive supplier of military earplugs, the test subjects were instructed to manipulate the earplugs due to the short stem so that it would achieve a satisfactory noise reduction rating. However, these same instructions to manipulate the dual-ended Combat Arms™ earplugs in this manner were not given to end users of the earplugs. Because of this, Plaintiff and other users of the dual-ended Combat Arms™ earplugs only used the earplugs according to the instructions provided by Defendant 3M Company, which did not instruct them to manipulate the earplugs to achieve a proper fit. As a result of not being properly warned or instructed as to how to wear the dual-ended Combat Arms™ earplugs, Plaintiff suffered damages.

22. Further, the dual-ended Combat Arms™ earplugs manufactured by Defendant 3M Company deviated from the specifications promulgated by the U.S. Military, the American National Standards Institute, and the Environmental Protection Agency in a manner that rendered them unreasonably dangerous. Specifically, the U.S. Military's request for proposal issued to Defendant 3M Company requires that "[t]he ear plugs shall be free from all defects that detract from their appearance or impair their serviceability." The dual-ended Combat Arms™ earplugs, as manufactured, deviated from this specification in that, when they left control of Defendant, the dual-ended Combat Arms™ earplugs were difficult for users to insert the plug deeply into their ear canals and obtain a proper fit. The defective manufacture of the dual-ended Combat Arms™ earplugs and their failure to conform with the required specifications directly and proximately caused Plaintiff's injuries.

TOLLING STATUTE OF LIMITATIONS

23. Under the Servicemembers Civil Relief Act, the period of Plaintiff's military service may not be included in computing any statute of limitations applicable herein. *See* 50 U.S.C. § 3936.

24. The Fifth Circuit has held that, when the applicable statute of limitations is borrowed from the state, that state's tolling provisions are to be the "primary guide" for the courts. *Piotrowski v. City of Houston*, 237 F.3d 567, n. 13 (5th Cir. 2001) (citing *FDIC v. Dawson*, 4 F.3d 1303, 1312 (5th Cir. 1993)). Under Texas law, fraudulent concealment is an affirmative defense to an assertion that the statute of limitations has run. *Timberlake v. A.H. Robins Company, Inc.*, 727 F.2d 1363, 1366 (5th Cir. 1984).

25. Here, Plaintiff's claims are based on Defendant 3M's affirmative involvement in manipulating test results and misrepresenting to the United States government and users of the dual-ended Combat Arms™ earplugs, such as Plaintiff, of Defendant 3M's defective design, manufacture and marketing of the dual-ended Combat Arms™ earplugs. The nature of the defects was such that they were imperceptible to wearers of the dual-ended Combat Arms™ earplugs, such as Plaintiff, at the time of use.

26. Here, there is no evidence that Plaintiff knew or had reason to know of Defendant 3M's affirmative conduct until July 2018, at the earliest, when the United States Department of Justice released the terms of its settlement with 3M Company based on the same allegations of manipulation of test results and misrepresentation of defects in the dual-ended Combat Arms™ earplugs as those allegations made the basis of this lawsuit.

27. Plaintiff neither knew nor had reason to know that Defendant 3M was engaging in affirmative conduct whereby they manipulated test results and misrepresented to the United States government the quality and performance of the dual-ended Combat Arms™ earplugs.

28. If the United States government neither knew nor had reason to know of Defendant 3M's affirmative misconduct regarding its testing and the quality of the dual-ended Combat Arms™ earplugs until first reported by a whistleblower, it goes without saying that Plaintiff himself would not know or have reason to know of this information until it became public in July 2018.

29. Therefore, the statute of limitations on Plaintiff's claims are tolled by fraudulent concealment and equitable tolling. Accordingly, Plaintiff's claims are timely.

B. EQUITABLE ESTOPPEL

30. Plaintiff incorporates by reference all preceding facts and allegations.

31. The Texas Supreme Court has held that, “[w]hen the defendant is under a duty to make a disclosure but fraudulently conceals the existence of a cause of action from the one to whom it belongs, the guilty party will be estopped from relying on the defense of limitations until the right of action is, or in the exercise of reasonable diligence should be, discovered.” *Nichols v. Smith*, 507 S.W.2d 518, 519 (Tex. 1974).

32. Here, Defendant 3M was under a duty to disclose the test results and any defects in the design, manufacture and marketing of the dual-ended Combat Arms™ earplugs to the United States government and to end users of the dual-ended Combat Arms™ earplugs. However, instead of disclosing test results and defects in the dual-ended Combat Arms™ earplugs, Defendant 3M actively manipulated the test results and misrepresented to the United States government and to end users the quality and performance of the dual-ended Combat Arms™ earplugs.

33. Plaintiff, along with other servicemembers who were issued dual-ended Combat Arms™ earplugs, relied on Defendant 3M to adequately test, manufacture, design and market the dual-ended Combat Arms™ earplugs. Defendant 3M’s manipulation of test results and misrepresentation to the United States government of the quality of dual-ended Combat Arms™ earplugs at issue acted to induce Plaintiff from exercising his rights.

34. Accordingly, Defendant 3M is equitably estopped from relying on the defense of limitations until the time that Plaintiff’s right of action was, or in the exercise of reasonable diligence should have been, discovered.

C. DISCOVERY RULE

35. Plaintiff incorporates by reference all preceding facts and allegations.

36. Under Texas law, an exception to the statute of limitations exists “in some situations in which a claimant was unable to know of his injury at the time of actual accrual; the exception is known as the ‘discovery rule.’” *Timberlake v. A.H. Robins Company, Inc.*, 727 F.2d 1363, 1364 (5th Cir. 1984) (citing *Robinson v. Weaver*, 550 S.W.2d 18, 19 (Tex. 1977)).

37. Here, due to imperceptible defects in the dual-ended Combat Arms™ earplugs at issue, and in reliance on Defendant 3M’s manipulation of test results and misrepresentations to the United States government as to the quality and performance of the dual-ended Combat Arms™ earplugs, Plaintiff was unable to know of his injury at the time of its actual accrual.

38. Accordingly, the discovery rule provides an exception to the statute of limitations as to Plaintiff’s claims

CLAIMS AGAINST DEFENDANTS

A. PRODUCTS LIABILITY—DESIGN DEFECT

39. The dual-ended Combat Arms™ earplugs at issue were originally designed, manufactured, and sold by Defendant 3M Company. At the time the dual-ended Combat Arms™ earplugs in question were sold, Defendant was in the business of designing, manufacturing, selling, and/or otherwise placing dual-ended Combat Arms™ earplugs, such as the ones in question, in the stream of commerce.

40. At the time the dual-ended Combat Arms™ earplugs in question were designed, manufactured and sold by Defendant, they were defective in design and unreasonably dangerous.

The defective and unreasonably dangerous condition of the dual-ended Combat Arms™ earplugs in question were a direct and proximate cause of the injuries to Plaintiff.

41. The dual-ended Combat Arms™ earplugs reached Plaintiff in the condition expected and intended by Defendant.

42. Plaintiff used the dual-ended Combat Arms™ earplugs for their intended and foreseeable purpose.

43. The defects regarding the dual-ended Combat Arms™ earplugs include but are not limited to the stem of the dual-ended earplug being too short, so that it is difficult for users to insert the plug deeply into their ear canals and obtain a proper fit.

44. Safer alternative designs existed other than the one used, which were economically and technologically feasible and would have prevented or significantly reduced the risk of accident and/or injury in question without substantially impairing the utility of the dual-ended Combat Arms™ earplugs.

45. The dual-ended Combat Arms™ earplugs were defectively designed because the stem of the dual-ended earplugs was too short, so that it is difficult for users to insert the plug deeply into their ear canals and obtain a proper fit. The inability to obtain a proper fit while using the dual-ended Combat Arms™ earplugs caused Plaintiff's injuries. Specifically, Defendant could have designed the dual-ended Combat Arms™ earplugs with a longer stem so that it would allow users to insert the plug deeper into their ear canals and obtain a proper fit.

46. Each alternative design for the above identified defects was available in the market and was technologically and economically feasible at the time the dual-ended Combat Arms™

earplugs were manufactured and would not have impaired the utility of the dual-ended Combat Arms™ earplugs.

47. Further, at the time the dual-ended Combat Arms™ earplugs in question were sold, the defective design caused the product to unexpectedly fail to function in a manner reasonably expected by an ordinary consumer. The defective and unreasonably dangerous design of the dual-ended Combat Arms™ earplugs were a producing cause of Plaintiff's injuries.

48. At the time of the incident made the basis of this lawsuit, the dual-ended Combat Arms™ earplugs were in the same or substantially similar condition as they were at the time they left Defendant's control and were placed into the stream of commerce. Any alterations to the dual-ended Combat Arms™ earplugs were made by a dealer and/or agent of Defendant.

49. Plaintiff further pleads that, pursuant to § 82.008(c)(1) and (c)(2) of the Texas Civil Practice & Remedies Code, reliance upon any standards or regulations of the federal government is improper because such standards or regulations were inadequate to protect against the risk or accident and/or injuries that occurred in this accident and/or Defendant withheld or misrepresented information to the government regarding the adequacy of the safety standard at issue.

B. PRODUCTS LIABILITY—MANUFACTURING DEFECT

50. The dual-ended Combat Arms™ earplugs at issue were originally designed, manufactured, and sold by Defendant. At the time the dual-ended Combat Arms™ earplugs in question were sold, Defendant was in the business of designing, manufacturing, selling, and/or otherwise placing dual-ended Combat Arms™ earplugs, such as the ones in question, in the stream of commerce.

51. The dual-ended Combat Arms™ earplugs reached Plaintiff in the condition expected and intended by Defendant.

52. Plaintiff used the dual-ended Combat Arms™ earplugs for their intended and foreseeable purpose.

53. When they left control of Defendant, defects in the manufacture of the dual-ended Combat Arms™ earplugs rendered them defective and unreasonably dangerous in that the dual-ended Combat Arms™ earplugs were difficult for users to insert the plug deeply into their ear canals and obtain a proper fit due. In particular, the stem of the dual-ended Combat Arms™ earplugs was too short, so that it is difficult for users to insert the plug deeply into their ear canals and obtain a proper fit. The defective manufacture of the dual-ended Combat Arms™ earplugs directly and proximately caused Plaintiff's injuries.

C. PRODUCTS LIABILITY—MARKETING DEFECT/FAILURE TO WARN

54. Defendant failed to give adequate and proper warnings and instructions regarding the dangers of the dual-ended Combat Arms™ earplugs which rendered the product defective and unreasonably dangerous and was a producing cause of Plaintiff's injuries and damages. Specifically, Defendant failed to warn potential and actual users of the dangers and risk of the defects. Further, Defendant failed to provide adequate instructions to users regarding proper use of the dual-ended Combat Arms™ earplugs. Defendant's failure to warn was a proximate cause of Plaintiff's injuries and damages.

D. STRICT LIABILITY

55. The dual-ended Combat Arms™ earplugs that injured Plaintiff were originally designed, manufactured, and sold by Defendant. At the time the dual-ended Combat Arms™

earplugs in question were sold, Defendant was in the business of designing, manufacturing, testing, assembling, monitoring, selling, and/or otherwise placing dual-ended Combat Arms™ earplugs, including the dual-ended Combat Arms™™ earplugs at issue and their defective condition, which was the proximate cause of Plaintiff's injuries.

56. The dual-ended Combat Arms™ earplugs reached Plaintiff in the condition expected and intended by Defendant.

57. Plaintiff used the dual-ended Combat Arms™ earplugs for their intended and foreseeable purpose.

58. Due to the design and manufacture of the dual-ended Combat Arms™ earplugs, the dual-ended Combat Arms™ earplugs were not reasonably effective at reducing noise. The failure to appropriately design and manufacture the dual-ended Combat Arms™ earplugs which contributed to the ineffectiveness of the dual-ended Combat Arms™ earplugs in reducing noise was the direct and proximate cause of Plaintiff's injuries. Accordingly, Defendant should be held strictly liable.

59. Defendant placed the defective dual-ended Combat Arms™ earplugs into the stream of commerce and expected or could reasonably foresee the use of said dual-ended Combat Arms™ earplugs by individuals, such as Plaintiff, in the condition in which the dual-ended Combat Arms™ earplugs were designed, manufactured and sold.

60. The dual-ended Combat Arms™ earplugs at issue were designed, manufactured and assembled so that the defective condition was undiscoverable at the time of use of the dual-ended Combat Arms™ earplugs.

61. The defective condition of the subject dual-ended Combat Arms™ earplugs was not observable by Plaintiff who relied upon Defendant to design, test, manufacture, sell and

deliver the subject dual-ended Combat Arms™ earplugs in a condition fit for use for the purposes intended.

62. As a direct and proximate result of the failure of Defendant to properly design, test, manufacture, sell and deliver the dual-ended Combat Arms™ earplugs at issue, Plaintiff has suffered severe personal injuries.

E. NEGLIGENCE

63. Defendant committed acts of omission and commission, which collectively and severally constituted negligence, and that negligence proximately caused Plaintiff's injuries.

64. Defendant's acts or omissions constituting negligence include:

- a. Failing to properly design the dual-ended Combat Arms™ earplugs;
- b. Failing to properly manufacture the dual-ended Combat Arms™ earplugs;
- c. Failing to adequately test the dual-ended Combat Arms™ earplugs;
- d. Failing to adequately market the dual-ended Combat Arms™ earplugs;
- e. Failing to adequately instruct users in using the dual-ended Combat Arms™ earplugs;
- f. Failing to recall the dual-ended Combat Arms™ earplugs or, alternatively, to warn consumers of a known danger/defect in the dual-ended Combat Arms™ earplugs;
- g. Failing to disclose post-sale information known about dangers or defects in the dual-ended Combat Arms™ earplugs;
- h. Concealing known dangers associated with the dual-ended Combat Arms™ earplugs; and

- i. Failing to meet or exceed internal corporate guidelines and/or reasonable safety guidelines in the industry.

F. GROSS NEGLIGENCE.

65. Plaintiff makes a claim for punitive damages pursuant to the Texas Constitution; therefore, Plaintiff will not be prohibited from introducing evidence of actual damages. Plaintiff seeks punitive damages for the gross negligence and/or malicious conduct of Defendant which was a proximate cause of the failure of the dual-ended Combat Arms™ earplugs and of Plaintiff's injuries and damages. Specifically, Defendant's conduct, when viewed objectively from Defendant's standpoint at the time it occurred, involved an extreme degree of risk, considering the probability and magnitude of the potential harm to others.

66. Furthermore, Defendant had actual, subjective awareness of the risk(s) but proceeded with a conscious indifference to the rights, safety or welfare of others.

G. EXEMPLARY DAMAGES

67. Because Defendant is liable for gross negligence, punitive damages should be assessed against it as a deterrent to such future bad conduct and as a punishment for its bad acts in an amount to be determined by the jury.

THE GOVERNMENT CONTRACTOR DEFENSE IS NOT APPLICABLE

68. The Fifth Circuit has held that "[l]iability for design defects in military equipment cannot be imposed, pursuant to state law, when (1) the United States approved reasonably precise specifications; (2) the equipment conformed to those specifications; and (3) the supplier warned the United States about the dangers in the use of the equipment that were known to the supplier

but not to the United States.” *Bynum v. FMC Corp.*, 770 F.2d 556 (5th Cir. 1985) (citing *Boyle v. United Technologies Corp.*, 487 U.S. 500 (1988)).

69. The Fifth Circuit has further held that “[t]he government contractor defense does not necessarily apply only to claims labeled ‘design defect.’ Whether the government contractor defense applies to a particular claim depends only upon whether *Boyle*’s three conditions are met with respect to the particular product feature upon which the claim is based.” *Bailey v. McDonnell Douglas Corp.*, 989 F.2d 794 at 801-02 (5th Cir. 1993).

70. Here, the government contractor defense is inapplicable because the feature of the product claimed by Plaintiff to be defective—namely, the stem of the dual-ended Combat Arms™ earplugs that is too short to provide adequate noise reduction for users—was not manufactured, designed, marketed, or sold in accordance with reasonably precise specifications approved by the United States, therefore not allowing the equipment to conform to such specifications. Further, and most egregiously, instead of warning the United States about the dangers in the use of the equipment it knew about, 3M instead manipulated its testing and marketing so as to conceal such dangers from the United States and from servicemembers, such as Plaintiff, who would ultimately use the product.

71. Accordingly, Defendant 3M Company will be held liable under Texas law.

DAMAGES

72. Plaintiff as a result of the incident seeks compensation for the following damages:

- a. Past and future physical disfigurement suffered by Plaintiff;
- b. Past and future physical pain and suffering of Plaintiff;

- c. The amount of reasonable medical expenses necessarily incurred in the past, and those that will reasonably be incurred in the future;
- d. Past and future physical impairment suffered by Plaintiff;
- e. Past and future mental anguish of Plaintiff;
- f. Past loss of wages and loss of future earning capacity of Plaintiff;
- g. Cost of suit;
- h. Exemplary damages; and
- i. Any and all other damages in which Plaintiff may be justly entitled.

PRAYER

73. For the foregoing reasons, Plaintiff prays that the Defendant be cited to appear and answer herein. Upon final trial by a jury, which is hereby demanded, Plaintiff is entitled to have judgment against Defendant and requests that the Court award money damages as listed above, in such amounts that the jury may deem appropriate and are allowable by law, along with any and all other relief the Court may deem appropriate.

DEMAND FOR JURY TRIAL

74. Plaintiff demands a trial by jury on all issues so triable.
